U of Texas Colleagues Train HCZ Baby College Staff:

For a week in mid-August, Professors Susan Landry and Ursula Johnson were in Harlem to lead a valuable training in PALS (Play & Learning Activities). We have always been pleased to know our DVD is helpful in their extraordinary work with young families in Texas and beyond. To witness the way they incorporate our film babies showing how they read with their families was a special treat. Both of these remarkable women deserve all of their success.
